## QUOTE MISTAKEN.

In the opinion of the World there is no need of any quarrel over whether the "Mad" boom for the Hastings municipality of benefit accruing from them to the city, and the fact that the Hastings municipality is a corporation, and not a private enterprise, is a mistake as to any rivalry between Belleville and Madoc—otherwise than in the imagination of the Review writer.

## SAFE WHERE HE IS.

A local contemporary says that "a petition is being circulated for the release of McWhirter, who murdered old man Williams at Port Credit." Better let him stay where he is, it is safer. He was convicted of a cold blooded murder, and his victim was a defenceless old farmer. The memory of the murder and the trial, is still fresh in the minds of the people.

## HUGH JOHN ACCEPTS.

He Will Become Leader of the Opposition in the Legislature.

Winning, March 1.—(Special.)—Hugh John Macdonald announced to-day that he would accept the Opposition leadership in the Legislature, provided it was the wish of his friends.

It was expected that Mr. Macdonald would not accept the leadership, as he had been so long in the Opposition, and it was thought that he would be content to remain in the position of a private member.

Mr. Macdonald's acceptance of the leadership is a great surprise to his friends, as he has been so long in the Opposition, and it was thought that he would be content to remain in the position of a private member.

Mr. Gibbon said in reply that no arrangement had been made, but that he was waiting until the next day to see what the railway companies would do.

The Weather.

The low pressure area from the western  
States is now central over the Ottawa Val-  
ley and has caused a fall of rain or sleet  
throughout the lake district. Snow and  
ice is now settling in eastern Canada.  
Higher pressure, accompanied by fine, cool  
weather, has extended southward to the  
lakes. The change predicted yesterday has  
come, after some strong easterly winds.

WHEN DARTY COMES. Owing to the  
large amount of anti-tubercular sub-  
stance in the market, it has been  
found necessary to suspend the sale of  
this valuable medicine. Thousands of phar-  
macists, druggists and chemists are now  
supplying the market. The sale of this  
valuable medicine is now suspended.

Large feet indicate ability, intellect, perseverance and integrity.

Scores of distinguished men have been as much noted for their big feet as for their large noses.

*As your foot should look.*

A simple line drawing of a right foot, shown from a side profile. The foot is large and has a high arch, with the toes pointing slightly upwards. It is positioned to the right of the text 'As your foot should look.'

George Eliot, Madame de Staël and other supremely intelligent women had also very large feet.

It is not the *size* but the *shape* of the foot which makes it beautiful or ugly, and the *shoe worn decides its shape*, as well as its comfort.

There is more care used—more time spent—in *shaping* "Slater Shoes" than in taking the stretch out of the leather so it will *retain* that shape, than in the entire making of ordinary shoes.

The Goodyear Welt process admits of this fine modelling, and the stamp on the sole ensures to the wearer these hidden qualities.

"FROM ANCIENT INDIA"

She makes enquiries into the matter, and finds that Mr. Masters is a visiting physician in Cleveland, but Mrs. Masters was at home and cheerfully told the story of her husband's recovery. She said: "You know how Mr. Masters used to suffer from rheumatism, when you were here a few years ago. Well, he got worse and he came so badly that he had to feed him from the bed, and he could not sit in a rattle chair. He could not move his hands, and his eyes at times failed reading, so that he could not read the paper. For three years he was in terrible agony, and he was so miserable that he decided that his wife was incurable. Many so-called rheumatic remedies were tried, but they all failed. Our neighbor recommended Dr. Williams' Pink Pills, and he took them for a few weeks, and

fully corroborated the statements made by the wife. The villagers who are acquainted with Mr. Williams' recovery are not a little proud of a miracle.

Dr. Williams' Pink Pills are a tonic medicine for the blood and strengthen the nerves, thus reaching the root of disease and driving it from the system. The people began to feel the great benefits of the 19th century, and have cured themselves of nearly all other ailments. Diseases had failed. The great popularity of Dr. Williams' Pink Pills has caused some persons to imitate them extensively, and intending buyers are urged to

carefully examine the wrapper, so as not to be unconsciously misled, as all the modern imitations are made in the same factory of the old days of wooden spools. The wrapper of the genuine pills is printed with a picture of a woman, and the words "Dr. Williams' Pink Pills for Pale People," with a shanty picture of a factory and a steam engine, and the words "Iron and Steel for Food," and putting off the date in the margin. The wrapper has given place to sugar house, retting, beetles, etc.

On Friday night an entertainment was given at the residence of Mrs. J. H. Williams, the Edison Kinetoscope and Graphophone on exhibition. The program was as follows: The prices in charge lauded under song and dance, and the program was given by the Petersburg a part of their company, and the whole was a very successful one. The Graphophone is an old friend and had not been in the city for some time.
